Projects

Kick me if you can WebGL Game Made for GameTrain game jam

Myself and a group of 3 more people attempted to create a game in just 4 days, where I was the primary developer and had a secondary developer, who helped me out, we worked around the clock to create a game that we were proud of, and we ended up winning first prize for our creation, the game is up and can be played on itch.io <https://www.thesilverdemons.com/kmiyc>

Dungeon's Kin Android Mobile Game

This was my final year project for my university, made using the unity game engine and C#, it is a dungeon explorer game that has been broken down into levels in which the player can engage in dynamic combat with AI, I was assigned as the primary developer and created a whole host of mechanics, including the combat system, animation system, leaderboards, login, signup, AI, level Up system, inventory, health, stamina etc.

shamir.surge.sh Simple front end page

A smaller project in which I familiarized my self with the MERN stack to be able to create beautiful and responsive web applications, the website is live and can be viewed, this was achieved using the surge hosting platform.

Mobile Now MERN stack web application

Web application made using all the elements in the MERN stack made for semester project for a class I was attending, this website is sadly not hosted anymore as the hosting provider I used has gone out of business,

Education

Matriculation 2015 Al Mahd Day Boarding School (Saar, Bahrain)

- Did my Matriculation from Al Mahd Day Boarding School. Focused mostly on Academics at my time in AMDBS to ensure that I would land in a prestigious college/university but, also took part in extra curricular activities. Was the leader for multiple clubs including:
 - Debate Club
 - Quiz Club
 - Creative Writing Club
 - Language Club

A and AS levels 2017 (Al Noor International School)

Completed my A levels from Al Noor in Computer Science, Physics and Mathematics,

Very grateful to attend such a prestigious school where we all motivated one another to perform better in all stages of our education.

Bachelors in Computer Science

(UMT, Lahore, Pakistan) 2023

Completed my Bachelors in Computer Science from University of Management and Technology in the year 2023 with a GPA of 3.46, completing my FYP in game development using the unity engine, will always be grateful for all the knowledge and wisdom provided to me by my peers and advisors
